INDEPENDENT AUDITOR'S REPORT

Board of Directors
Parkway Community Facilities District No. 1
Town of Prescott Valley, Arizona

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the major fund of the Parkway Community Facilities District No. 1 (District), a component unit of the Town of Prescott Valley, Arizona, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the District, as of June 30, 2014, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note 1, the District implemented the provisions of the Governmental Accounting Standards Board (GASB) Statement No. 65, *Items Previously Reported as Assets and Liabilities*, for the year ended June 30, 2014, which represents a change in accounting principle. Our opinion is not modified with respect to this matter.

Other Matter

Required Supplementary Information

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities

For the Year Ended June 30, 2014

Net change in fund balances - Governmental Fund Type	\$ (48,093)
Amounts reported for governmental activities in the statement of activities are different because:	
Issuance and repayment of long-term debt is a revenue and expenditures in the in the governmental funds, but the issuance and repayment reduces long-term liabilities in the statements of net position. In the current period, these amounts are:	
Principal payments on debt	100,000
Changes in net position of governmental activities	<u>\$ 51,907</u>

The notes to the financial statements are an integral part of this statement.

NOTES TO FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Financial Reporting Entity

The Parkway Community Facilities District No. 1 (District) was created by the Town of Prescott Valley (Town) as a special purpose community facilities district pursuant to state law on April 27, 2006. The purpose of the District is to assist in financing necessary on and off-site infrastructure and public improvements.

The Town council serves as the District's board of directors. In accordance with Governmental Accounting Standards Board (GASB) Statement No. 39 – *Determining Whether Certain Organizations are Component Units*, the District financial statements are reported in the Town's financial statements for the year ended June 30, 2014, using the blended method.

During the year ended June 30, 2014, the District implemented the provisions of GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. GASB Statement No. 65 establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

The financial statements of the District conform to generally accepted accounting principles as applicable to governmental units. The District applies all relevant GASB pronouncements.

B. Basis of Presentation

Fund Accounting

The accounts of the District are organized and operated on the basis of funds and account groups, each of which is considered to be a separate accounting entity. The District operates only one fund, a general fund, the operations of which are accounted for by providing a separate set of self-balancing accounts that is comprised of the fund's assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. The minimum number of funds is maintained consistent with legal and managerial requirements.

General Fund

The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Government-Wide and Fund Financial Statements

The government-wide financial statements (e.g. the *statement of net position* and the *statement of activities*) report information on the primary government and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The District does not have any business-type activities.

The *statement of activities* demonstrates the degree to which the direct expenses for a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

C. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes, where applicable, are recognized as revenues in the year for which they are levied.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers revenues to be available if they are collected within sixty (60) days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to claims and judgments, are recorded only when payment is due.

D. Budgets and Budgetary Accounting

The District is not required to adopt an annual appropriated budget but does, however, adopt a budget for management purposes. Therefore, no budgetary comparison is required.

E. Assets, Liabilities and Fund Equity

Cash and Cash Equivalents

Arizona statutes require that public deposits of more than \$100,000 meet several specific requirements. Deposits of less than \$100,000 are subject only to local ordinance or resolution. Generally, the state statutes allow investments in certain certificates of deposit, interest bearing savings accounts in qualified banks and savings and loan institutions, repurchase agreements with maximum maturity of thirty (30) days, and pooled investment funds established by the State Treasurer. Other investments include obligations of the U.S. Treasury, U.S. Government agencies, bankers' acceptances and mutual funds.

The District records only bond trust activity. There are no checking or investment accounts for the District.

Restricted Assets

District bond assets as well as certain resources set aside for bond repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants.

Property and Equipment and Long-Term Liabilities

The District has no capital assets. All capital assets acquired by the District are donated to the Town. The Town is responsible for maintaining the improvements.

Long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net position. Bond premiums and discounts, as well as the difference between the reacquisition price, and the net carrying amount of the old debt, are deferred and amortized over the life of the bonds using the straight-line method. Bond issuance costs are expensed.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Accumulated Compensated Absences

No liability for accumulated compensated absences existed at June 30, 2014.

Fund Equity

In the fund financial statements, governmental funds report a restriction of fund balance for amounts that are legally restricted by outside parties for a specific purpose.

II. DETAILED NOTES

A. Cash and Cash Equivalents

The bank trust fund represents proceeds from bond sales and certain resources set aside for their repayment. Under the terms of the bond indenture, the proceeds are required to be held by a trustee. Funds on deposit are invested by the trustee in money market funds, as governed by state statute.

Deposits

At June 30, 2014, the carrying amount of the District's deposits was \$381,089, which is comprised of deposits with trustee of \$381,089.

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the entity's deposits may not be returned to it. As of June 30, 2014, the District's deposits were covered by federal depository insurance or by the collateral held by the District's agent or pledging financial institution's trust department or agent in the name of the District, and thus had no deposits that were exposed to custodial credit risk.

Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from rising interest rates, the District limits its investment portfolio to maturities of less than three years, unless matched to a specific cash flow.

Credit Risk

The District invests in obligations of the U.S. Treasury, U.S. Government agencies, Certificates of Deposit, bankers' acceptances, repurchase agreements and mutual funds consisting of the foregoing as a means of limiting its credit risk.

The District's investment in the bonds of U.S. agencies was rated AA+ by Standard & Poor's, AAA by Fitch Ratings and AAA by Moody's Investors Service.

B. Advance from Town

With the downturn in the housing market, the secondary assessed value for the Parkway Community Facilities District No.1 was severely affected. As a result, the district did not generate sufficient *ad valorem* taxes to cover operating expenditures incurred within the district. The Town has advanced funds to the district to cover these costs. The district will begin repaying the Town as the secondary assessed value begins to increase.

Parkway Community Facilities District No. 1

C. Debt

The District has the following long-term obligations:

\$3,425,000 Parkway Community Facilities District No. 1 General Obligation Bonds, Series 2006 is due in annual payments of \$126,698 to \$269,780 through July 15, 2031, with interest at 4.85-5.35% per annum. (Payable from revenues generated through an *ad valorem* tax assessed against the properties located within the boundaries of the District).

Changes in Long-Term Liabilities:

<u>Balance</u> <u>6/30/2013</u>	<u>Increases</u>	<u>Decreases</u>	<u>Balance</u> <u>6/30/2014</u>	<u>Due Within</u> <u>One Year</u>
\$ 3,145,000	\$ -	\$ 100,000	\$ 3,045,000	\$ 105,000

Debt Service requirements to maturity are as follows:

Fiscal Year Ending	Principal	Interest
2015	\$ 105,000	\$ 157,891
2016	110,000	152,678
2017	115,000	147,020
2018	125,000	140,780
2019	130,000	134,150
2020-24	760,000	558,770
2025-29	975,000	329,511
2030-32	725,000	59,519
	\$ 3,045,000	\$ 1,680,319

III. OTHER INFORMATION

A. Contingent Liabilities

In the ordinary course of conducting its operations the District is involved in various legal matters. The District's legal counsel reports on the cases pending against the District. These matters are in various stages and the impact, if any, is not currently determinable. The District's management does not believe that any of these matters would have a material impact on the financial statements.

B. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omission; injuries to employees; and natural disasters for which it carries commercial insurance. The District also carries commercial insurance for all other risks of loss, including workers' compensation and employee health and accident insurance.

Parkway Community Facilities District No. 1

C. Debt Service Reserve

At the time the bonds were issued for the District improvements, a debt service reserve in the amount of \$269,780 was established. An unscheduled draw of \$37,207 was made against the \$269,780 reserve to make the July 15, 2011 bond payment. An unscheduled draw of \$2,164 was made against the reserve to make the July 15, 2012 bond payment. Another unscheduled draw of \$10,266 was made against the reserve to make the July 15, 2013 bond payment. As of June 30, 2014 the reserve balance is \$219,220.

D. Prior Period Adjustments

The July 1, 2013, government-wide net position of Governmental Activities does not agree to the prior year financial statements due to the implementation of GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*.

Total net position - June 30, 2013, as previously reported	\$ (2,492,937)
Unamortized bond issuance cost	<u>(269,278)</u>
Total net position - July 1, 2013, as restated	\$ (2,762,215)

E. Subsequent Events

Another unscheduled draw of \$25,984 was made against the reserve to make the July 15, 2014 bond payment.

On July 10, 2014, the District approved a property tax rate increase from \$16.24 per \$100 of secondary assessed value to \$16.51. This decision was the result of a continued decline in secondary assessed value within the District boundaries and to reduce the draw on deposits.
