INDEPENDENT AUDITORS' REPORT

Board of Directors
Raven Ridge Community Facilities District
Town of Prescott Valley, Arizona

We have audited the accompanying financial statements of the governmental activities and the major fund of the Raven Ridge Community Facilities District (the "District"), a component unit of the Town of Prescott Valley, Arizona, as of and for the year ended June 30, 2011, which collectively comprise the Districts' basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Districts' management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

As discussed in Note 1, the financial statements of the Raven Ridge Community Facilities District are intended to present the fund balances and the changes in fund balances that are attributable to the District, a component unit of the Town of Prescott Valley, Arizona. They do not purport to, and do not represent fairly the financial position of the Town of Prescott Valley, Arizona, as of June 30, 2011, and the changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the District as of June 30, 2011, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 1, the District implemented the provisions of the Governmental Accounting Standards Board (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, for the year ended June 30, 2011, which represents a change in accounting principle.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

NOTES TO FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Financial Reporting Entity

The Raven Ridge Community Facilities District (District) was created by the Town of Prescott Valley (Town) as a special purpose community facilities district pursuant to state law on January 21, 2003. The purpose of the District is to assist in financing public improvements needed to allow the residents of the District to connect to the Town's wastewater collection and treatment system.

The Town council serves as the District's board of directors. In accordance with Governmental Accounting Standards Board (GASB) "*Statement 39 – Determining Whether Certain Organizations are Component Units,*" the District financial statements are reported in the Town's financial statements for the year ended June 30, 2011, using the blended method.

The financial statements of the District conform to generally accepted accounting principles as applicable to governmental units. The District applies all relevant GASB pronouncements.

During the year ended June 30, 2011, the District implemented the provisions of GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. GASB Statement No. 54 establishes standards for financial reporting, including note disclosure requirements for fund balance classifications of governmental funds, and clarifies existing governmental fund type definitions.

B. Basis of Presentation

Fund Accounting

The accounts of the District are organized and operated on the basis of funds and account groups, each of which is considered to be a separate accounting entity. The District operates only one fund, a general fund, the operations of which are accounted for by providing a separate set of self-balancing accounts that is comprised of the fund's assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. The minimum number of funds is maintained consistent with legal and managerial requirements.

General Fund

The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Government-Wide and Fund Financial Statements

The government-wide financial statements (e.g. the *statement of net assets* and the *statement of changes in net assets*) report information on the primary government and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The District does not have any business-type activities.

The *statement of activities* demonstrates the degree to which the direct expenses for a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

C. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property assessments, where applicable, are recognized as revenues in the year for which they are levied.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers revenues to be available if they are collected within 30 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to claims and judgments, are recorded only when payment is due.

This means that only current assets and liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of “available spendable resources.” Governmental Fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of “available spendable resources” during a period.

D. Budgets and Budgetary Accounting

The District is not required to adopt an annual appropriated budget but does, however, adopt a budget for management purposes. Therefore, no budgetary comparison is required.

E. Assets, Liabilities and Fund Equity

Cash and Cash Equivalents

Arizona statutes require that public deposits of more than \$100,000 meet several specific requirements. Deposits of less than \$100,000 are subject only to local ordinance or resolution. Generally, the state statutes allow investments in certain certificates of deposit, interest bearing savings accounts in qualified banks and savings and loan institutions, repurchase agreements with maximum maturity of thirty days, and pooled investment funds established by the State Treasurer.

The District records bond trust activity and maintains a bank checking account.

Restricted Assets

District loan assets as well as certain resources set aside for loan repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable loan covenants.

Property and Equipment and Long-Term Liabilities

The District has no capital assets. All capital assets acquired by the District are donated to the Town. The Town is responsible for maintaining the improvements.

Long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bond issuance costs are reported as deferred charges and amortized over the life of the related debt.

Raven Ridge Community Facilities District

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Accumulated Compensated Absences

No liability for accumulated compensated absences existed at June 30, 2011.

Fund Equity

In the fund financial statements, governmental funds report reservation of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

II. CASH AND CASH EQUIVALENTS

A. Cash and Cash Equivalents

The District maintains a bank checking account.

Deposits

At June 30, 2011, the carrying amount of the District's deposits was \$28,764 and the bank balance was \$28,764.

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the entity's deposits may not be returned to it. As of June 30, 2011, the District's deposits were covered by federal depository insurance or by the collateral held by the District's agent or pledging financial institution's trust department or agent in the name of the District, and thus had no deposits that were exposed to custodial credit risk.

III. DEBT

The District has the following long-term obligations:

A loan agreement with the Water Infrastructure Financing Authority was entered into on January 21, 2003 for a maximum principal amount of \$925,446, at an interest rate of 3.188%, the proceeds of which are designated for the construction of the identified project. (Payable with revenues generated from an assessment levied against the properties located within the boundaries of the District.)

Long-term loans are secured by a lien on property within the District for which the full assessment has not initially been paid in cash. In the event of default by any of those property owners, the District may force an auction sale of the property to satisfy debt service requirements.

Changes in Long-Term Liabilities:

	<u>Balance</u> <u>6/30/2010</u>	<u>Increases</u>	<u>Decreases</u>	<u>Balance</u> <u>6/30/2011</u>	<u>Due Within</u> <u>One Year</u>
Raven Ridge	\$279,050	\$ -	\$ 17,910	\$261,140	\$ 20,248

Raven Ridge Community Facilities District

Debt service requirements to maturity are as follows:

Fiscal Year Ending	Principal	Interest
2012	\$ 20,248	\$ 7,540
2013	20,248	6,956
2014	20,248	6,372
2015	20,248	5,786
2016	20,248	5,202
2017-21	101,239	17,240
2022-24	58,661	3,327
	\$ 261,140	\$ 52,423

IV. CONTINGENT LIABILITIES

At this time there are no contingent liabilities.

V. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omission; injuries to employees; and natural disasters for which it carries commercial insurance. The District also carries commercial insurance for all other risks of loss.
