## INDEPENDENT AUDITORS' REPORT

Board of Directors  
Stoneridge Community Facilities District  
Town of Prescott Valley, Arizona

We have audited the accompanying financial statements of the governmental activities and the major fund of the Stoneridge Community Facilities District (the "District"), a component unit of the Town of Prescott Valley, Arizona, as of and for the year ended June 30, 2010, which collectively comprise the Districts' basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Districts' management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

As discussed in Note 1, the financial statements of the Stoneridge Community Facilities District are intended to present the fund balances and the changes in fund balances that are attributable to the District, a component unit of the Town of Prescott Valley, Arizona. They do not purport to, and do not represent fairly the financial position of the Town of Prescott Valley, Arizona, as of June 30, 2010, and the changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the District as of June 30, 2010, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

## Balance Sheet

June 30, 2010

---

### ASSETS

Restricted assets - cash and cash equivalents	\$ 3,657,023
Total assets	<u>\$ 3,657,023</u>

### LIABILITIES AND FUND BALANCE

#### Liabilities

Accounts payable	\$ 389,319
Developer deposits	<u>2,960,000</u>
Total liabilities	<u>3,349,319</u>

#### Fund balance

Reserved	<u>307,704</u>
Total fund balance	307,704

Amounts reported for governmental activities in the statement of net assets are different because:

Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.	(13,935,000)
--	--------------

Net assets of governmental activities - statement of net assets	<u>\$ (13,627,296)</u>
---	------------------------

The notes to the financial statements are an integral part of this statement.

**StoneRidge Community Facilities District**  
**Reconciliation of the Statement of Revenues, Expenditures and**  
**Changes in Fund Balances of Governmental Funds**  
**to the Statement of Activities**

For the Year Ended June 30, 2010

Net change in fund balances - Governmental Fund Type	\$ (63,033)
Amounts reported for governmental activities in the statement of activities are different because:	
Issuance and repayment of long-term debt is a revenue and expenditures in the governmental funds, but the issuance and repayment reduces long-term liabilities in the statements of net assets. In the current period, these amounts are:	
Principal payments on debt	445,000
Changes in net assets of governmental activities	<u>\$ 381,967</u>

The notes to the financial statements are an integral part of this statement.

## NOTES TO FINANCIAL STATEMENTS

### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. Financial Reporting Entity

The StoneRidge Community Facilities District (District) was created by SunCor Development as a special purpose community facilities district pursuant to state law on July 26, 2001. On July 26, 2001, the Town Council adopted Resolution No. 1031 forming the District. On October 4, 2001, the District board adopted Resolution No. 1 which organized the District with the purpose to assist in financing necessary on and off-site infrastructure and public improvements.

The Town council serves as the District's board of directors. In accordance with Governmental Accounting Standards Board (GASB) "*Statement 39 – Determining Whether Certain Organizations are Component Units,*" the District financial statements are reported in the Town's financial statements for the year ended June 30, 2010, using the blended method.

The financial statements of the District conform to generally accepted accounting principles as applicable to governmental units. The District applies all relevant GASB pronouncements.

#### B. Basis of Presentation

##### **Fund Accounting**

The accounts of the District are organized and operated on the basis of funds and account groups, each of which is considered to be a separate accounting entity. The District operates only one fund, a general fund, the operations of which are accounted for by providing a separate set of self-balancing accounts that is comprised of the fund's assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. The minimum number of funds is maintained consistent with legal and managerial requirements.

##### **General Fund**

The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

##### **Government-Wide and Fund Financial Statements**

The government-wide financial statements (e.g. the *statement of net assets* and the *statement of changes in net assets*) report information on the primary government and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The *statement of activities* demonstrates the degree to which the direct expenses for a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

**C. Measurement Focus and Basis of Accounting**

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes, where applicable, are recognized as revenues in the year for which they are levied.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All Governmental Fund types are accounted for using the “flow of current financial resources” measurement focus. This means that only current assets and liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of “available spendable resources.” Governmental Fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of “available spendable resources” during a period.

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

**D. Budgets and Budgetary Accounting**

The District is not required to adopt an annual appropriated budget but does, however, adopt a budget for management purposes. Therefore, no budgetary comparison is required.

**E. Assets, Liabilities and Fund Equity**

**Cash and Cash Equivalents**

Arizona statutes require that public deposits of more than \$100,000 meet several specific requirements. Deposits of less than \$100,000 are subject only to local ordinance or resolution. Generally, the state statutes allow investments in certain certificates of deposit, interest bearing savings accounts in qualified banks and savings and loan institutions, repurchase agreements with maximum maturity of thirty days, and pooled investment funds established by the State Treasurer. Other investments include obligations of the U.S. Treasury, U.S. Government agencies, bankers’ acceptances and mutual funds.

The District records only bond trust activity. There are no checking or investment accounts for the District.

**Restricted Assets**

District bond assets as well as certain resources set aside for bond repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants.

**Property and Equipment and Long-Term Obligations**

The District has no capital assets. All capital assets acquired by the District are donated to the Town. The Town is responsible for maintaining the improvements.

Long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bond issuance costs are reported as deferred charges and amortized over the life of the related debt.

## StoneRidge Community Facilities District

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

### **Accumulated Compensated Absences**

No liability for accumulated compensated absences existed at June 30, 2010.

## **II. CASH AND CASH EQUIVALENTS**

### **A. Cash and Cash Equivalents**

#### **Deposits**

The bank trust fund represents proceeds from bond sales and certain resources set aside for their repayment. Under the terms of the bond indenture, the proceeds are required to be held by a trustee. Funds on deposit are invested by the trustee in highly liquid investments, as governed by state statute.

#### **Custodial Credit Risk – Deposits**

Custodial credit risk is the risk that in the event of a bank failure, the entity's deposits may not be returned to it. As of June 30, 2010, the District's deposits were covered by federal depository insurance or by the collateral held by the District's agent or pledging financial institution's trust department or agent in the name of the District, and thus had no deposits that were exposed to custodial credit risk.

#### **Interest Rate Risk**

As a means of limiting its exposure to fair value losses arising from rising interest rates, the District limits its investment portfolio to maturities of less than three years, unless matched to a specific cash flow.

#### **Credit Risk**

The District invests in obligations of the U.S. Treasury, U.S. Government agencies, Certificates of Deposit, bankers' acceptances, repurchase agreements and mutual funds consisting of the foregoing as a means of limiting its credit risk.

The District's investment in the bonds of U.S. agencies was rated AAA by Standard & Poor's and Fitch Ratings, and Aaa by Moody's Investors Service.

## **III. DEBT**

The StoneRidge Community Facilities District has the following long-term obligations:

\$ 14,800,000 StoneRidge Community Facilities District General Obligation Bonds, Series 2001 is due in annual payments of \$420,000 to \$1,310,000 through January 15, 2026, with interest at 6.00-6.75% per annum. (Payable from revenues generated through an *ad valorem* tax assessed against the properties located within the boundaries of the District. A standby contribution agreement with the District developer is in place whereby in the event of any deficiency in the revenues generated by the *ad valorem* tax the developer is liable to contribute an amount equal to the deficiency to cover the debt service payments.)

StoneRidge Community Facilities District

Changes in Long-Term Liabilities:

	Balance 6/30/2009	Increases	Decreases	Balance 6/30/2010	Due Within One Year
StoneRidge (Series 2001)	\$14,380,000	\$ -	\$ 445,000	\$13,935,000	\$ 475,000

Debt Service requirements to maturity are as follows:

Fiscal Year Ending	Principal	Interest
2011	\$ 475,000	\$ 910,488
2012	505,000	881,088
2013	535,000	849,887
2014	565,000	815,474
2015	600,000	777,612
2016-20	3,655,000	3,213,042
2021-25	5,065,000	1,754,832
2026-27	2,535,000	173,981
	\$ 13,935,000	\$ 9,376,404

The District has the authority to issue general obligation bonds in an aggregate principal amount not to exceed \$33,000,000. As of June 30, 2010, the District board has not received a request from the developer to issue the remaining bonds to fund additional improvements. All bonds are payable from an *ad valorem* tax levied on all taxable properties within the boundaries of the District.

**IV. CONTINGENT LIABILITIES**

At this time there are no contingent liabilities.

**V. RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omission; injuries to employees; and natural disasters for which it carries commercial insurance. The District also carries commercial insurance for all other risks of loss, including workers' compensation and employee health and accident insurance.

**VI. DEVELOPER DEPOSITS**

At the time bonds were issued, the developer agreed to make semi-annual payments (as needed) based on contribution agreements to supplement ad valorem tax collections from property owners in order to make bond payments. In addition, the developer made a cash deposit of \$2,960,000 to the bond trustee for use if stand-by contributions were to cease. This amount is reported on the financial statements as developer deposits.

The developer informed the District that it no longer has the net worth to comply with the covenant made in the contribution agreements. On June 21, 2010, the trustee issued a notice to default to bond holders. No action was taken at that time by the District or the bond trustee since the developer remained current on its obligations under the contribution agreements. On September 21, 2010 the District became aware of the developer's parent company's decision to discontinue all further operations of the developer. In the meantime, developer representatives have raised the specter of a near-term bankruptcy filing that will have an impact on not only the future stand-by contributions but the current deposit held by the bond trustee. The District has retained counsel to

*StoneRidge Community Facilities District*

assist in determining the best course to take in relation to the competing interests involved. In addition, the District has embarked on an effort to obtain input from StoneRidge residents on the issue.
