

April Hepperle

As a 26-year member of this community, I am excited to be running for your Prescott Valley Town Council. I have watched this town grow since I was 10 years old, and I look forward to speaking one-on-one with fellow residents about their cares and concerns for Prescott Valley's present condition and future possibilities. Prescott Valley is one of the greatest towns in what is -by far- the greatest state in America...and the secret is out. But by engaging in honest discussions and providing facts in a clear and concise manner, I believe we can work toward *responsible* growth that benefits every single person in our community.

With two teenagers at home, I am an active member of the community and understand the importance of family-friendly events and activities. The African proverb, "It takes a village to raise a child," is still relevant today, and it is up to us to provide a safe, active and healthy environment for the young people of our town. Everything from safer streets (i.e. well-lit sidewalks) to increased recreational activities to a wider variety of coaches and specialty teachers can bring improvement to an already wonderful place to raise our children.

While I look forward to bringing a fresh vision to the town council, and new vigor to town happenings, I still hold firmly to the small-town values I was raised with, and look forward to spreading that hope and positivity in whatever way I can as a member of the Prescott Valley Town Council.
